FOR IMMEDIATE RELEASE

Pharad Updates GSA Schedule: Several New Products and Lower Prices

Hanover, MD – June 28, 2013- Pharad has updated their product offering under their U.S. General Services Administration (GSA) Schedule this summer. The update includes lowering several product prices and increasing the number of products they now offer at preferred pricing to the government.

Pharad was awarded a GSA Federal Supply Schedule 70 contract last March under contract number GS35F0290Y. Under their contract they offer antenna and RF-over-fiber products.

Pharad's president, Austin Farnham commented, "We are proud to be an approved vendor for government acquisition through the GSA program. The update to our GSA Schedule allows the government to purchase the latest technology on the market at the best prices."

About Pharad, LLC

Located in Hanover, Maryland, Pharad, LLC is a customer focused company and technology leader in the development and manufacture of highly efficient, electrically small antennas and RF over fiber systems for communications and defense applications. Pharad creates innovative solutions for realizing difficult-to-engineer antennas for confined operational environments and very broadband applications. Pharad also manufactures a range of RF over fiber products that can support the high performance fiber optic remoting and switching of RF signals.
