

# Covert Cut-to-Tune VHF/UHF Peel and Stick Antenna

Model Shown: AA-130-550-CTT

## Features

- Antenna can be tuned by cutting antenna at predetermined frequency specific lengths
- Tunable over 130 – 550 MHz
- Flexible antenna less than 0.01" thick
- Low visibility provides stealthy installations on vehicles
- Adhesive backing for quick installation

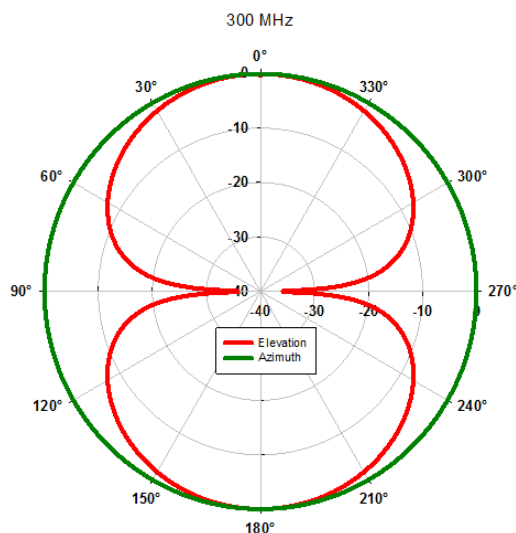

## Characteristics\*

| Model Number    | AA-130-550-CTT       |
|-----------------|----------------------|
| Frequency       | 130 – 550 MHz        |
| Gain            | 0 dBi                |
| VSWR            | < 3:1                |
| Pattern         | Dipole               |
| Polarization    | Linear               |
| Power           | 10 W                 |
| Uncut Size      | 39.5" × 0.6" × 0.01" |
| Weight          | 0.2 oz               |
| Cable Length    | 10'                  |
| Connector Type* | SMA Male             |

\*Characteristics when antenna is cut to length.  
\*TNC connector also available.
