

Electronics Manufacturing and Assembly Technician

Are you a detailed oriented person who takes pride in accomplishing production excellence? Electronics equipment manufacturer is looking for a quality oriented manufacturing and assembly technician to work in our Hanover, MD production facility. The position is offered as full-time or part-time. Salary commensurate with experience.

- Solder and assemble electronic hardware including antennas, coaxial cables, and RF circuits.
- Test the performance of antennas and wireless communication products using electronic test equipment.
- Carry out associated electronics assembly tasks including crimping, epoxying, painting, boxing, and packaging
- Follow production drawings and work instructions
- Occasionally operate power tools such as saws, drills, and presses
- Maintain workstations, materials, and factory

Basic Qualifications required for the job:

- AS or Technical degree or Equivalent work experience
- Previous experience operating soldering equipment
- Capable of learning and performing associated electronics assembly tasks including crimping, epoxying, painting, assembling, boxing, and packaging
- Strong attention to detail, efficient performer with excellent work ethic
- Capable of following production drawings and work instructions
- Comfortable using power tools such as saws, drills, and presses in a safe manner
- Comfortable operating electronic test equipment
- Willing and able to work in a quiet environment with little supervision, but high expectations
- Willing and able to perform a variety of non-assembly tasks including cleaning workstations and the factory
- Willing and able to maintain a strict adherence to safety rules and regulations, including wearing safety equipment
- Willing and able to sign a confidentiality agreement as a condition of employment
- Willing and able to pass pre-employment background check and drug test.

Preferred Qualifications that would put you ahead:

- One (1) or more years of experience working in a manufacturing or industrial environment
- AS degree, equivalent training, military technician experience
- Previous experience working with computers and Microsoft Office tools for record-keeping and documentation functions
- Familiarity with ISO9001:2008 and other quality and workmanship standards
- Previous experience working in the electronics industry
- Ability to read and understand electrical schematics and circuits

- Ability to build high quality, professional products on a consistent basis
- Mechanically inclined person with steady hands
