

900 MHz ISM Mini-Gooseneck Antenna

Model Shown: MG-900-930

Features

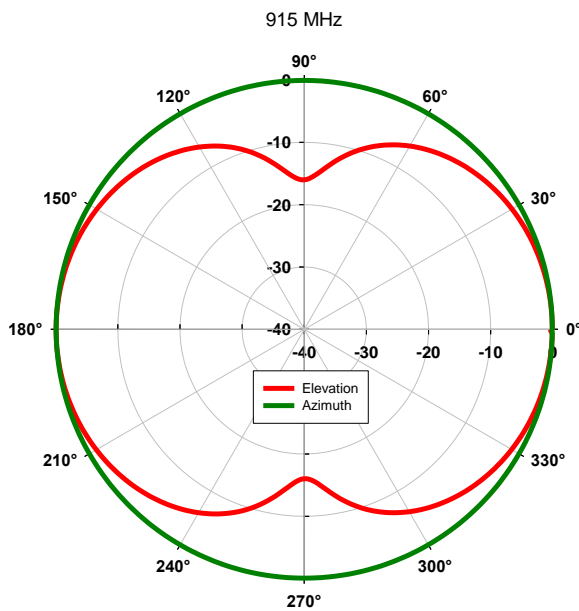

- 902 – 928 MHz ISM band operation
- Flexible arm to reposition antenna
- Easily fits on small radios

Characteristics

Model Number	MG-900-930
Frequency	902 – 928 MHz
Gain*	2 dBi @ 915 MHz
VSWR	< 2.5:1 over relevant bands
Pattern	Near Omnidirectional in Azimuth
Polarization	Vertical
Power	0.5 W
Size	5.1" x 0.56"
Weight	0.5 oz
Connector Type	SMA Male

* Measured in free space. Addition of ground plane will increase gain.
